

SafeStop™: Your Solution for a Safer, More Efficient Dryer

For Housing Inspectors: Reduce Points Deduction Risk with SafeStop™

SafeStop™ is the essential tool for ensuring dryers adhere to safety codes and industry standards. Housing inspectors are well acquainted with the pitfalls of dryer vent hose crimping – SafeStop™ is your answer to eliminating this hazard.

Keep Dryers Compliant and Efficient

No more deductions for dryers crammed against walls! SafeStop™ expertly prevents vent hose compression, keeping a clean, six-inch clearance. This smart solution protects against fire hazards and maintains the appliance's energy efficiency.

Effortless Installation, Immediate Benefits

Offering two easy installation methods – a sturdy wall mount and a convenient dryer mount with pre-attached magnets – ensures optimal placement and compatibility. Secure SafeStop™ onto any surface, knowing it's designed for widespread use by professionals and homeowners alike.

A Commitment to Safety

By integrating SafeStop™ into your toolkit, you'll witness fewer infractions related to dryer vent crimping and help foster overall household safety. Remember, regular maintenance is paramount, and SafeStop™ is a partner in the pursuit of prevention.

The Choice is Clear with SafeStop™
